## Filmora Keeps Crashing BEST

This guide provides 4 useful tips to help you reduce crashes and delays when editing videos with Filmora X. 1. Run Filmora X as administrator If you are working with ASF and TS video files, you should run Filmora X in administrator mode to ensure better performance. If you're only working on MP4 video files, it doesn't matter. On Windows, click the Start menu, then type administrator in the search box and click the Administrator button. Once run as administrator, Filmora X will work very well.
